TAKEBACK PROGRAM CONSUMER CONTACTS

- 8a. What Web site address do you provide to consumers for information on your takeback program? www.BestBuy.com/recycling
- 8b. If provided, what telephone number do you provide to consumers for information on your takeback program? 1-888-BEST BUY (1-888-237-8289)

TAKEBACK PROGRAM INFORMATION

9. Please describe your takeback program.

In Store Recycling Program - The in-store drop off program is available at all Best Buy locations where consumers can bring consumer electronics into a Best Buy location for recycling. Consumers are not charged a recycling fee. Consumer can bring in for recycling three consumer electronics daily. Best Buy has provided consumers with a list of all products Best Buy will accept through the in-store drop off program on our website www.BestBuy.com/recycling.

TV Haul-Away - Best Buy will remove an old or obsolete TV or Appliance at no charge from a consumers' home when a new product is purchased and is being delivered to the home by Best Buy Home Delivery or Geek Squad. The TV and Appliance Haul-Away program is offered at all Best Buy locations in the U.S. Best Buy will provide direct collection from a consumers home when a customer purchases the Haul-Away service. The cost for this service covers the transportation but the customer is not charged for recycling. In the case of Haul-Away, as a service, Best Buy will come directly to the resident's home and take away two items, regardless of brand, for recycling.

Tech Trade-In - Best Buy provides consumers a program where select products can be identified for value and consumers are compensated for those products using Best Buy Gift Cards. This program is not limited to Best Buy's private label products and residents can utilize this program to return products that are not manufactured by Best Buy. If it is determined that select products have no value the customers can select the option to print a mailing label at their home and send unwanted or end-of-life consumer electronics to a Best Buy contracted recycler free of charge.

In-Store Recycling Kiosks - The recycling kiosk gives customers and employees an opportunity to recycle wireless devices, ink cartridges, gift cards, CDs and DVDs, and rechargeable batteries at no cost to the consumer or employee. The recycling kiosk is located in the vestibule of every Best Buy store.

10. What information do you provide to consumers on how and where to return covered electronic devices that are labeled with your name or brand label?

Best Buy provides a toll free number (888-BEST BUY) and a website providing a description of all recycling option offered through Best Buy (www.BestBuy.com/recycle). Information available through the toll free number and available on the website is a complete list of what products are accepted through each program, locations of physical collection facilities (Best Buy stores), Best Buy's recycling standards, (In addition to the toll free number and website Best Buy has aired television spots highlighting the recycling program as well as inserts in weekend editions of printed news papers.

11. How do you provide information to consumers on how and where to return covered electronic devices?

Printed material in Best Buy stores, well trained and knowledgeable retail employees in every Best Buy store, website, newspaper advertisements and television.

TAKEBACK PROGRAM REPORT (include this information beginning with the first registration submitted after the implementation of the takeback program)

12. The total weight of the covered electronic devices received by the takeback program from consumers during the prior year:

amended registration 4/20/11

Nationally Best Buy consumer electronics recycling programs accepted 33,530 Tons

40 1/31/11
13. The processes and methods used to recycle or reuse the covered electronic devices received from consumers: Best Buy promotes responsible environmental stewardship by requiring all recyclers retained by Best Buy to comply with standards regarding the reuse, refurbishment or recycling of products collected through our programs and the disposal of waste generated from the recycling process

Recycling Hierarchy: Recycler uses available processes and techniques which minimize the waste and environmental impact generated during the recycling process.

Incineration or Land Disposal: Recycler does not utilize incineration or land disposal for equipment or components and will not use these technologies as a primary management strategy for waste generated during the recycling process.

Reuse and Refurbishment: Recycler screens all equipment and components to determine if it is practical to reuse equipment or components or refurbish equipment or components to be reused for the original intended purpose.

Data Security: Recycler processes all hard drives and similar data storage devices in a way that renders all data unrecoverable.

Recycling: Recycler responsibly manages the recycling process and material in a manner that minimizes environmental impacts for all equipment and components that have reached end-of-life.

Export: Recycler and downstream service providers do not sell or export outside of developed countries (the OECD) any non-working equipment or components.

Reporting and Record Keeping: Recycler systematically differentiates and tracks data required by Best Buy.

3rd Party Audit: Recycler provides access to all documentation, personnel and facilities necessary for Best Buy or a third party auditor to assess performance and compliance.

Downstream Due Diligence: Recycler utilizes environmentally responsible subcontractors and can provide documentation that demonstrates due diligence in selecting subcontractors.
